

Highlights – March 2019

Network Performance:

ServingTogether is nine months post launch! Preparations are in full swing for our 1 year In Progress Review (IPR) being held in July 2019. Save-the-Dates are coming soon! Check out the latest data on network performance.

Since our launch in May 2018 we have seen 428 unique clients come through the network for assistance with 1043 service requests. That is an average of over 2 requests per client which shows the regularity of co-occurring needs, and the need for a network solution. By addressing multiple problems presented by clients we are better positioned as providers to set our clients up for better solutions and more sustainable outcomes.

Transparency Report 2019

AmericaServes recently launched its transparency report for 2019! [Click here](#) for all the data and for information about how networks across the country are helping veterans.

ServingTogether Network Provider Shout-Out – Capitol Post

Thanks to our Network Partner, [Capitol Post](#), ServingTogether was invited to participate at the Bunker Brews DC Happy Hour event on March 26 at Valor Brewpub. Bunker Brews is a monthly meetup where the [Bunker Labs](#) community — veterans, military spouses, and civilians alike — can network with subject-matter experts, investors, thought leaders, and more to create a robust environment for business growth and development.

Capitol Post is a 501(c) (3) that teaches military veterans and their spouses how to think and act like entrepreneurs. Whether veterans and their spouses are starting a business or discovering their ideal career post-service, they provide coaching, business acceleration programs, networking opportunities, and office space for veterans to explore and de-risk the pursuit of their business or career objectives here DMV. Their goal is for every Washington-DC area-based veteran to feel fulfilled and proud of their post-military path.

Capitol Post also supports the local DC chapter of Bunker Labs - a national not-for-profit organization that empowers the veteran community to become leaders in entrepreneurship and innovation.
